place for your mare in this stallion's very limited live cover book.

- Service Fee - A 'Service Fee' of \$800.00 (incl. GST and first collect) is payable at least 2 (two) weeks before semen is required to be sent for insemination by your vets in the case of AI. In the case of live cover, the service fee is payable before the mare leaves the stud farm after breeding. The booking/handling fee is additional and is to be paid at the signing of the contract.

- Collection Fee - The first collection fee is included in the service fee but subsequent collects are charged at \$175 (incl. G.S.T). This fee is to cover the collection, preparation, extending and examination of semen, consumables and delivery to courier depot for overnight courier. Courier charges are additional along with any costs associated with flights for each cycle/insemination the Mare is bred on. For overnight courier you should expect to pay approximately \$20 and we find this service is more than adequate unless your mare is showing signs that she requires more urgent insemination or you are in the far south or far north, in which case we can send by air. Freight by air is approximately \$125 and, depending upon your location, our travel charges are an additional \$100 to \$125 (we send from Wellington or Palmerston North Airports - the former being a 250km round trip and the latter a 200km round trip).

- There will be charges incurred where the mare owner requires Talisman Farm to employ their AI technician (SYENZ) or Vet (Wairarapa Equine) to inseminate or treat Mares here on the owner's behalf - these fees are to be paid promptly on invoice. We charge an additional \$25 per scan/flush/insemination to cover our time or you are welcome to come to us to attend to your own mare. We can arrange for our AI Technician to perform scans, insemination and flushes. You should expect to pay \$50 plus mileage (approximately \$50) for each process. These costs are to be paid on invoice.

- Grazing Fees of \$6.00 Inc per day for dry mares and \$9.00 per day for wet mares.

- Mares requiring hard feed will have the feed invoiced to the owner's account or the Mare owner can supply their own feed.

- The Mare Owner agrees that all AI Tech/Veterinary and/or Farrier costs are to be invoiced as an extra cost to the Service fee. These fees along with Grazing Fees will be paid promptly upon invoicing. If you require you mare to be inseminated at our stud you will need to book in advance as we have limited spaces. Our local vet clinic (Vet Services Wairarapa Equine) has all the facilities required to inseminate and scan mares.

- All invoices are to be paid in full before the mare is collected from Talisman Farm.

Please make all cheques payable to L A Wilsden. Bank Account: ANZ, 06-0501-0397069-02

3. RESERVATIONS FOR SEMEN/STALLION SERVICE:

Upon receipt of the Booking/Handling/Collection Fee we will confirm a reservation in Crossiebeg Brennan's Stud book.

- It is the Mare Owner's responsibility to check semen/stallion availability in advance. We would appreciate a few days notice if possible that you intend to breed your mare or are booking scan dates with your vet. We require a **MINIMUM** of 24 hours notice for collecting.

NOTE: *We generally do not collect semen on Saturdays, Sundays and some public holidays, mainly due to the unavailability of couriers. Please mention this to your vet so they are able to work around these dates. If you are able to collect the semen yourself, we can generally collect at any time, as long as we have notice so can be prepared.*

4. SERVICE CONDITIONS / LIVE FOAL GUARANTEE:

The Mare will be limited to being bred on four cycles in any one breeding season.

- If the Mare fails to get in foal she may return the following season, but will be liable for another booking fee and any associated collection / insemination charges and grazing where required.

- If the Mare tests positive for pregnancy but becomes barren during gestation, she will be eligible for a return service. A veterinary certificate of barrenness must be sent to Talisman Farm within 10 days of the examination

- If the Mare produces a live foal that is unable to stand or suckle and it subsequently dies (within 7 days), the Mare is eligible for a return service. A veterinary certificate must be provided to Talisman Farm within 10 days of the foal's death. It must also state that the mare was properly cared for during gestation and was attended at foaling. Failure to provide the certificate within the given period will make return of service policy null and void.

- If the Mare becomes un-breedable for any reason, the Mare Owner may swap the return service to another mare after gaining the permission of Talisman Farm but no refunds will be given.

- All rights of return to the Stallion do not include Booking Fees, collection and transportation fees and grazing if we are arranging AI on your behalf or your mare comes for live service.

5. REFUND OF FEES:

The Mare Owner will be entitled to a refund of the Service Fee if the Stallion dies or becomes unfit for service prior to serving the mare in the present breeding season. However we will not re-fund any costs associated with insemination, vet, courier etc. There will be no refunds (except as above) but the mare owner is entitled to on sell the breeding contract to another mare owner with approval from Talisman Farm.

6. TRANSFER OF CONTRACT:

This contract will not be valid if the Mare is sold or otherwise changes ownership, unless prior permission is gained from Talisman Farm.

7. WARRANTY:

The Mare Owner hereby releases Talisman Farm from any responsibility or liability for any disease, injury or accident to the mare or accompanying foal whilst in the care of the Stud.

8. ISSUE OF BREEDING CERTIFICATE:

Only one Breeding Certificate will be issued for this contract. This will pertain to the Mare described in the contract.

9. LOST OR DELAYED SEMEN.

Talisman Farm will not be liable for any costs associated with lost or delayed semen or of the mare owner's vet fees.
